# APX 85

## IDEAL HARMONY

APX 85 is a six-chamber profile, which features above-average thermal insulation properties.

Thanks to increased depth of profiles and number of internal chambers APX 85 is a superb solution for energy-saving constructions. System is equipped with external sealing and a big chamber with steel enforcement for better stability.

## THE BENEFITS

of choosing APX 85 system

modern  
design

excellent  
thermal insulation

## FEATURES

- six-chamber system
- installation depth - 85mm
- external sealing
- energy-saving aspects
- thermal transmittance of profiles up to  $U_f=1,1 \text{ W/m}^2\text{K}$ .

## CHARACTERISTICS

OF KEY PARAMETERS
